1.

1. To fit to *hard hat*, simply slip peak and rear edge of hat into sewn pockets in the green underbrim of Sunvisor

2.

2. Shows how the hole covers provide extra protection whilst wearing earmuffs

3.

3. The hole covers can be opened by simply lifting touch tape tab.

4.

4. The Sunvisor gives maximum protection even when earmuffs are not in use

5.

5. The Sunvisor has a green underbrim which gives extra protection by absorbing any reflected light

6.

6. The Sunvisor brim opens to allow movement of earmuffs by pulling apart the touch tape tabs on the outside of the earmuff holes

The Sunvisors folds in half.  
By simply by undoing brims touch tape tabs.  
***Fits easily into a backpack or tool box.***  
**IT'S**  
**TRANSPORTABLE**  
**and that's important**  
**Packaging**
